

WOMAN IS KILLED BY AUTO DRIVER

Mrs. J. W. Mattingly of
Oklahoma City, Is the
Victim of Smash.

ANOTHER IS BADLY HURT

Driver Drunk, Police Say,
Dr. Hottle Is Held for
Drunkenness.

Special to The World.

OKLAHOMA CITY, Sept. 6.—Mrs. J. W. Mattingly, 24 years old, was today killed when an automobile in which she was riding, and which is said to have been driven by Dr. J. W. Hottle, a physician, collided with another driven by George J. Smith.

Mrs. Mattingly's husband was in the car with his wife and the doctor. The car was driven by Dr. Hottle, who was under the influence of alcohol, and was riding northward on the main highway.

The doctor was driving northward on the main highway, and was riding northward on the main highway. The car was driven by Dr. Hottle, who was under the influence of alcohol, and was riding northward on the main highway.

One Eye Witness.

The body of Mrs. Mattingly was found in the wreckage of the car. The car was driven by Dr. Hottle, who was under the influence of alcohol, and was riding northward on the main highway.

The car was driven by Dr. Hottle, who was under the influence of alcohol, and was riding northward on the main highway. The car was driven by Dr. Hottle, who was under the influence of alcohol, and was riding northward on the main highway.

SATISFIED?

What would become of my family if my earning ability should be seriously impaired? Should I not safeguard them now against such a possibility?

It is a wise policy to take into consideration the possibility of reverses during life, and to provide for the future out of the plenty of the present.

This can be done by placing cash, securities or property in trust with this Company, the income and the principal to be paid as you direct.

The advantages of such an arrangement—known as a voluntary trust—are many. It provides experienced and efficient administration for the funds or securities set aside; it assures every safeguard for the principal, and the highest interest return consistent with safety; it relieves the maker of the trust of personal attention to the management of affairs placed in our care, and at the same time gives him the opportunity to direct their handling in such manner as may be agreed; and the trust may be revoked at any time if the maker desires to reserve this privilege.

Slated as German Envoy to America

Dr. Hansel von Hainhausen.

WASHINGTON, Sept. 2.—Germany's next ambassador to the United States will be Dr. Hansel von Hainhausen, according to authoritative dispatches from Berlin. Dr. von Hainhausen is well known in Washington, having been counselor at the German embassy here for many years.

During the war he was active in German diplomatic politics and was at one time mentioned as a possible candidate for the first presidency. He was assigned on June 22 as representative to sign the peace treaty at Versailles, having been the delegate to the conference. The following day he telegraphed his resignation to the German cabinet.

In addition to cash and iron, 17 rare metals have been found in Spitzbergen by British interests.

GOVERNOR ROBERTSON REPLIES TO RUSSELL

All Pardons and Paroles Granted on
Merit and Recommendation of
Prosecuting Officials.

Special to The World.

OKLAHOMA CITY, Sept. 6.—A telegraphic news dispatch from Gracemont, Okla., where a plume of the Farmers union was held Thursday afternoon in which Campbell Russell, state corporation commissioner, criticized the pardon and parole record of Governor Robertson and asked an explanation as to a suggestion for the executive council caused much comment about the exchange. Yesterday, Governor Robertson declined to be quoted further than to say that his record as to pardon and parole was open to the most searching scrutiny by any person of the state and that for the present at least he would offer no comment.

Russell's charge in the document which more than 100,000 lines and persons had been granted since the governor was inaugurated in January. The governor's reply was that such and all of them are open to public inspection. Additional comment on the work of the governor and parole department was that in every instance the relief was granted upon the petition of those officials who favored in the present and upon the recommendation of county officials and citizens as well as judges. That there was sufficient relief in each petition to warrant the relief is accepted and of course the records are always open to public inspection. It was also pointed out that there are more than 100,000 persons in the state prison and that many more in the reformatories and county jails subject to such petition and that the rate of pardon and parole is not high.

TO INVESTIGATE AUTO-PHONE.

R. E. Echols Goes to Dallas to See
Automatic Phones Function.

Special to The World.

OKLAHOMA CITY, Sept. 6.—As a possible solution of the problem of securing adequate and efficient telephone service in Oklahoma the automatic telephone is to be given consideration. R. E. Echols, member of the state corporation commission, who spent yesterday at Ada hearing a complaint involving increase in price of gas, will go to Dallas, Texas, this time to see to it that the automatic telephone is to be given consideration. OKLAHOMA CITY, Sept. 6.—Some time after last year Oklahoma City will see the beginning of construction of an Elks home to cost about \$125,000, according to H. H. Norment, secretary of the lodge.

ADA NEGRO TO BE HONORED

Recommended for Carnegie Medal—
Saved Lives of Five Persons.

Special to The World.

ADA, Sept. 6.—Ada has one Carnegie hero medal already, Rev. C. Morris being the possessor, and now another is to come to town. This time it is to come to a 20-year-old negro boy, Thelma Cannon, Leonard C. Reed of Pittsburgh, Pa., has been here this week investigating the matter and has recommended that Thelma be given a medal of honor. The act for which the hero boy is to be honored was rescuing five negroes from the floods in 1916.

In January, 1916, there was a gauged in this county, the town of Ada being flooded. More than six inches of rain fell in a few minutes, the house was surrounded by water and the flood kept creeping higher and higher. All means of escape were cut off when Cannon plunged into the water, filled with snow and ice, and one by one, he rescued the women and children five in all, to safety. The boy, himself, then only 17 years of age, contracted pneumonia and was sick for a year.

EAST CENTRAL NORMAL TO OPEN 11TH YEAR TUESDAY

Special to The World.

ADA, Sept. 6.—The East Central Normal will open its eleventh year here Tuesday when the doors will be open for enrollment. Next before has been such a brilliant year. The school has been steadily increasing in enrollment and the quality of the instruction has been steadily improving. New Styles in Boys' Suits With TWO Pants—

YOU can tell that the war is ended by the very decided effect it has had on the new fall suit styles for boys of every age. The models are almost exact duplicates of the smartest of the new young men's styles. In fact we have never seen such handsome styles for boys in all the years we've been in this business. See some of them in the windows.

Double Breasted Styles

THE new double breasted styles are due to be very popular with both boys and parents. We have them in half a score of different effects. Some have full belts, others three quarter belts; nearly all made with the waist seam. Most of them have TWO pairs of knickers for double service. New slash, vertical, patch and pleated pockets. All sizes from 7 to 18 years at \$15 up.

Suits With the Waist Seam

THE boys fall suits nearly all have waist seam. Those in single breasted styles display a score of new style touches never before seen in boys' suits. Some have full belts, others three-quarter belts, still others have vests and silk linings just like the men's suits. A wide variety of new fabrics and shades with one or two pants at \$12.50 up.

Certified By Goodrich More-Mileage Adjustment

Whenever you buy anything, something measures it out, certifying how much of it you get. It may be by yardstick, or a pair of scales.

The tire user has settled on the mile as his measuring unit of service.

Goodrich, accepting his measurement, certifies them both the quality and quantity of Goodrich Tires with the Goodrich More-Mileage Adjustment—6,000 miles for Fabric Tires—8,000 miles for Silver-town Cords.

Goodrich is making what it has pleased thousands of Goodrich dealers and users to tell us "are the best tires the rubber industry has produced."

Then Goodrich Certification steps in, and measures out to the tire user in his own unit the least he with proper usage will get from a Goodrich Tire.

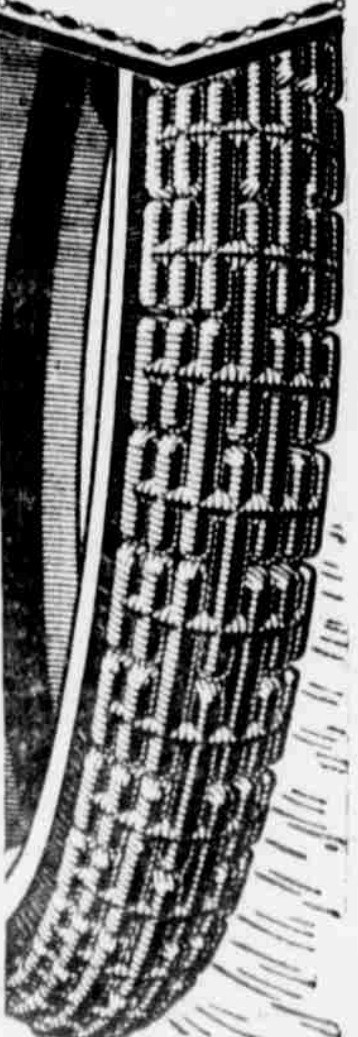

It gives tire users the peak standard at once a gauge to appraise the value of other tires, and a surety bond for the Goodrich Tires he is buying.

Fabric - 6,000 miles
Cords - 8,000 miles

GOODRICH TIRES

BEST IN THE
LONG RUN

NASH TRANSPORTATION IS DEPENDABLE

Take the Government's Opinion of NASH TRUCK Construction

More than twelve thousand five hundred Nash Trucks were built for military purposes during the war period. More trucks, we believe, than were produced by any other single manufacturer for military service.

This is a striking testimonial of the endurance and high quality of Nash Trucks as determined under abnormal hauling conditions.

Nash Trucks are built according to most approved practices of truck construction and include as a feature the automatic locking differential. This makes practically impossible loss of traction by the truck's driving wheels by preventing spinning.

It thus saves tires and fuel and enables Nash Trucks to get through with their loads where other trucks without this important feature cannot go.

We can make prompt delivery to immediate buyers.
